DISCHARGE OF ENROLLED CHILDREN

Child's progress communication between center and parents: It is important we communicate daily concerning the needs and interests of each child. If there are issues or concerns that need to be discussed, parents should arrange with us a convenient time to talk on the phone or schedule a conference. To foster communication on a regular basis, Sunshine and Giggles, LLC provides parent bulletin board, face to face daily conversations, yearly development observations, text messages and phone calls.

Circumstances and procedures for termination of enrollment

Child related: Sunshine and Giggles, LLC will regularly advise parents on their child's progress through daily sheets for infants & toddlers, daily conversations and scheduled conferences. When children have problems adjusting to the center's daily schedule and classroom rules, parents will be contacted for a face-to-face conference. At this meeting, the teacher will state her concerns and discuss observations made of the child's behavior, and an action plan will be developed. If after two weeks the behaviors have not improved, another conference will be scheduled to either revise the action plan or to terminate placement and refer the child to other services.

Parent initiated mutual decision, center initiated, and involuntary discharge:

A child may be discharged from the center for many reasons. Often **parents initiate** the termination. Occasionally, after an action plan has been tried without positive result, the center and the parents come to a **mutual decision** to end the child's enrollment. In some circumstances the termination may be **center initiated**.

Center initiated:

If the problem leading up to termination is due to non-compliance to the center's policy by the parents, the teacher will contact the parents for a face-to-face meeting. At this meeting, the teacher will state her concerns and review and clarify agency policy with the parents. Input from parents will be encouraged so that common understanding can be reached. If after 2 weeks the problem is still present, parents will be advised in writing that their child's enrollment will be terminated. Parents will be given a 2 weeks' notice regarding the termination of their child's enrollment. The parent will be responsible for Childcare fees for the final 2 weeks even if the child does not attend.

Involuntary discharge of a child could result for the following reasons:

1. Failure to pay fees on time. (Grounds for immediate termination, without notice.)
2. Lack of parental cooperation
3. Inability of Childcare program to meet the needs of the child. Staff will consult with the parent concerning how any problems might be solved before ending the care arrangement. These steps will be documented in the child's file. The parent will be referred to other community resources.
4. Repeated failure to pick up the child at scheduled time.

5. Failure to complete and return required forms.

Behavior related discharges. Acting out, inability to follow classroom rules, inability to follow teacher's directions are all examples of reasons why a child could be discharged due to behavior.

Steps prior to discharge. All efforts will be made to work out a plan for behavior management between staff and the parents to see if problematic behaviors can be managed and/or corrected. The teacher will ask for a parent/teacher conference to discuss the behaviors in detail. Input from parent on behavior management is vital. If after two weeks the behaviors have not improved, another conference will be scheduled to either revise the action plan or to terminate placement and refer the child to other services. All meetings, behavior plans, and outcomes will be documented and placed in the child's file.

Outside agency involvement:

Prior to any child being terminated, efforts may be made to seek additional services from other care providers to address the problem. For example, children may be referred to a physician for a vision or hearing screening. Referrals to birth to 3, speech and language screenings are some of the outside agencies that could be utilized. Should the child require additional services that are not available directly through the center, an outside agency may be contacted to meet those needs. Staff will consult with parents before contacting any outside agency.

Decision making:

All decisions regarding the discharge of enrolled children are summarized in the section above, *Circumstances and procedures for termination of enrollment.*

Discrimination issues:

If you feel your child has been discharged due to discrimination, please bring these concerns to the Director for a thorough review. It is our policy to never refuse to enroll a child based on race, sex, color, creed, political persuasion, national origin, handicap, ancestry or sexual orientation.

Appeal process:

Should you disagree with the termination of your child for any reason, please discuss your concerns with the center's director.

Sunshine and Giggles, LLC will give 2 weeks written notice of our intent to discharge a child (and try to inform parents of local resources that may be of help to them), except when due to parent's failure to keep current with fees owed. Parents must also give the center a 2 weeks' written notice of intent to withdraw their child. Parents are expected to comply with all the policies and procedures of the Childcare center; failure to comply could result in the termination of your child's enrollment.

- Payment of fees will be due the first day of the week that the child is in attendance.

A contract will be drafted and signed by parents with an agreement on the rate per week for your child's care. Additional fees will be assessed for additional hours beyond those outlined in the parent contract. Parents should review attendance sheets each week and sign them verifying hours of attendance.

CHILD EDUCATION

There may be a religious component to our program. We will offer celebration of religious holidays, conversations may be had about the children's faith, and mealtime prayers may be offered.

Groups of children may be combined at the beginning and at the end of any given day. Being that Sunshine and Giggles, LLC is open in the early morning and late afternoon we have a written plan for activities which meet the individual needs of the children during those time periods. Activities at the beginning and at the end of the day will be designed for a wide age range of children working and playing together. Our plan includes opportunities for children to rest and eat and to use materials and engage in activities which for the most part do not duplicate activities planned for a major part of our program.

There is a Childcare worker/teacher assigned to each classroom in the center and staff to child ratios are always maintained. Depending on the number of children present on any given day there may also be an assistant Childcare worker in the classroom as well. Each group/classroom of children is supervised by a teacher who is within sight and sound of the children to guide the children's behavior and activities, prevent harm and assure safety.

There is an outdoor play space on the premises of the center. Trampolines and inflatable bounce surfaces are not allowed.

Children, including infants and toddlers, will go outdoors daily when weather permits, so dress your child appropriately for the weather. Please make sure an extra set of clothing is always available for your child. The children may be kept indoors during inclement weather such as any of the following:

- Heavy rain
- Temperatures above 90 degrees F.
- Wind chills of 0 degrees F. or below for children age 2 and above
- Wind chills of 20 degrees F. or below for children under age 2

Make sure your child/children wear sturdy shoes that will allow them to be active. Best practices recommend at least 15 minutes of teacher-led physical activity each time children are outdoors. We have a clean, organized, safe outdoor play area on the side of the building. There is a variety of fixed and portable play equipment that allow for mastery of balance and coordination (tunnels, balance boards, safe climbers), travelling skills (tricycles, scooters, push/pull toys) and large manipulative skills (balls, hoops). There are multiple pieces of equipment so that multiple children can participate in an activity at a time and that there are spaces for children of all ages, including infants. When weather does not permit outdoor play, Children engage in physical activity indoors, including vigorous activity like running and jumping. Here at Sunshine and Giggles, LLC children will be given the opportunity to participate in the planning and maintenance of vegetable and flower gardens.

Infants and toddlers will have a flexible schedule, which reflects the child's individual needs. They will be given individual attention including lots of time for talking. The body position of non-mobile infants and their location in the center will be changed frequently. We will provide safe, open spaces for children who are creeping and crawling. Infants and toddlers will be encouraged to play with a wide variety of safe toys and objects. A written report will be maintained documenting what each child ate, when they slept and when they wet or soiled a diaper. We will use this report to share information with parents about the child's activities and disposition for that specific day.

Preschool age children will have opportunities to play and explore their surroundings. They will be given many learning experiences in a variety of developmental areas that are age appropriate. Daily activities include math, science, large and small muscle movement, art and literacy.

School age children will have a quiet place to study or relax, access to appropriate materials and activities, and will have ample time for large muscle activities.

Rest or naptime will be provided for all children younger than six years of age who are in care for more than four consecutive hours. Children who do not sleep may get up after 30 minutes, and children who awaken early will be allowed to get up when they awake. Staff will help awake children find quiet activities. Sunshine and Giggles, LLC will launder the bedding after every five uses, or sooner if necessary.

Night Care

We are not licensed to provide care between 7:00 P.M. and 6:00 A.M.

Evacuating sleeping children Staff will be trained in techniques for evacuating sleeping children, as part of the orientation, and flashlights or battery-lanterns will be kept in each classroom. Children will be evacuated through the nearest safest exit. Emergency information will be taken out with each classroom. Infants/toddlers will be placed four to a rolling crib and rolled out of the building. Teachers will be responsible for taking a head count of their classroom once everyone has been evacuated.

It is important that we communicate daily concerning the needs and interests of each child Sunshine and Giggles, LLC offers parent-staff conference opportunities at least 2 times per year to discuss the child's growth and development and adjustment to the program. If there are issues or concerns that need to be discussed, parents should arrange with us a convenient time for an in person meeting. To foster communication on a regular basis, Sunshine and Giggles, LLC provides scheduled conferences/written newsletters/parent bulletin board and daily conversations. To support healthy development, we intentionally include information about physical activity, gross motor development and nutrition in our communications with families.

Sunshine and Giggles, LLC staff along with parents and their input will plan activities and provide children with a variety of experiences.

Learning through play is the major component of our program. Enough time, materials and space will be provided for children to actively explore the world around them. Children will have an opportunity to use a variety of art materials, manipulative and housekeeping equipment. Our curriculum will provide exposure to a variety of cultures through music, stories, games and art, and we will celebrate how we are all the same and how we are all different from one another. Routines such as toileting and eating and intervals between activities are planned to avoid keeping children waiting in lines or assembled in large groups.

Sunshine and Giggles, LLC does not have a swimming pool on the premises.

The center will use wading pools for the children.

The center will not be using an off-premises pool, wading pool, water attraction or beach for the children.

Staff will help children transition without having to stand in line or large groups by singing, dancing and marching.

We occasionally take walks around the neighborhood. Emergency information for each child will be taken whenever the children leave the premises. You will be notified in advance of any field trip requiring transportation.

Sunshine and Giggles, LLC has a written program of activities which are suitable for the developmental level of each child and each group of children. The program provides each child with experiences which will promote all the following: self-esteem and positive self-image, social interaction, self-expression and communication skills, creative expression, large and small muscle development, intellectual growth and literacy.

A schedule of daily activities is posted in each classroom. A program of activities is planned a week in advance. Staff use a variety of resources in their planning. We will also use the services of the Wisconsin Childcare Information Center (800-362-7353) and access their resources to plan activities. The activities focus on a monthly theme based on the interests of the children and lesson plans are available for parents to review.

CHILD GUIDANCE POLICY

When a child is crying, fussy or distraught, staff will work to calm and comfort the child, in ways that are appropriate for the child's age and personal disposition. This may include stroking, cuddling, rocking; offering a drink; acknowledging the child's fear, or separation sadness, or conflict; distracting or redirecting to another activity; talking calmly with the child about how she/he is feeling or what has happened. If the unhappiness persists, we may contact a parent to share what is occurring and inquire if this might indicate onset of an illness.

Children's behavior will be guided by setting clear limits or rules for children. We will talk with children about expected behaviors and model those behaviors consistently for them. We will state positively what children can do, using specific terms, e.g. "you need to use an inside voice" rather than "don't yell"). Undesirable behavior will be redirected to another activity. Children will be given a wide variety of age-appropriate activities to choose from and will be given the attention they need before they demand it. Behavior management will be for helping children develop self-control, self-esteem and respect for the rights of others. Opportunities for physical activity are not withheld as a behavior management strategy. Children are redirected to safe physical activities and are involved in discussion about safety concerns, when necessary.

We recognize that no single technique will work with children every time. If a child exhibits unacceptable behavior, we will request a conference with parents to consider how to deal with the behavior. If the behavior continues, the next steps may include referrals to appropriate community resources, and/or discharge of the child from care. In accordance with "Wisconsin Rules for Group Childcare Centers," actions that are aversive, cruel, humiliating, and actions that may be psychologically, emotionally or physically painful, discomfoting, dangerous or potentially injurious are prohibited. Prohibited actions include spanking, hitting, pinching, shaking, slapping, twisting, or inflicting any other form of corporal punishment on the child; verbal abuse threats or derogatory remarks about the child or the child's family; physical restraint, binding or tying the child to restrict the child's movement or enclosing the child in a confined space such as a closet, locked room, box or similar cubicle; withholding or forcing meals, snacks or naps; punishing a child for lapses in toilet training. These forms of punishment will never be used, even at a parent's request.

"Time-Out" is a guidance technique that can be effective when dealing with unacceptable behaviors of young children. Time outs may not be used with children under age 3, and never for more than 3 minutes. The term 'time-out' is short for 'time out from positive reinforcement. The strategy is like an extended form time from all sources of reinforcement (e.g., teacher and peer attention) following serious challenging behavior of selectively ignoring disruptive behavior. Children are removed for a brief. Usually this strategy requires that a child be removed from an ongoing activity for a brief time, typically by having a child sit on the outside of the activity within the classroom until the child calms down and is ready to rejoin the activity and try again. Time-out is intended to be a non-violent response to conflict that stops the conflict, protects the victim, and provides a 'cooling off period' for the child.

"Time-out" is only effective when used in the context of a comprehensive approach to behavior support that is designed to teach, nurture and encourage positive social behaviors. Time-out is used only when less intrusive discipline procedures have been tried and deemed unsuccessful and only in combination with positive procedures designed to teach new skills and prevent challenging behaviors from occurring. Effective management of behavior will always start with praise and encouragement for pro-social

behavior and self-regulation and be accompanied by distraction, redirection, withdrawal of attention, and logical and natural consequences. The child will be praised after completing the time-out and will be helped to rejoin the group.

Routines such as toileting and eating and intervals between activities are planned to avoid keeping children waiting in lines or assembled in large groups.

Classroom arrangement, materials and programming are scaled to the developmental level, size and ability of children which will contribute to providing clear guidelines and promoting positive behavior.

Parental Involvement in solving behavior: All efforts will be made to work out a plan for behavior management between staff and the parents to see if problematic behaviors can be managed and/or corrected. The teacher will ask for a parent/teacher conference to discuss the behaviors in detail. Input from parent on behavior management is vital.

If possible, evacuation of the building will be initiated using the fire evacuation procedure. If it is not possible to evacuate the building each classroom will take cover in a secure area. Allergic reactions – Each child with an allergy should have a written care plan that includes instructions regarding the allergen, steps to be taken to avoid that allergen, and a detailed treatment plan in the event of an allergic reaction, including the names, doses, and methods of prompt administration of any medications (such as an epinephrine auto-injector). If it is a life-threatening situation, with no time to consult the child's file or parent, the child will be taken to Gundersen St. Joseph Hospital in Hillsboro, WI. If an ambulance would be needed, parents will be responsible for any costs. Parents will be contacted as

soon as possible after contacting 911. The injury will be recorded in the medical logbook upon return to the center.

Superficial injuries will be washed with soap and water and covered with a bandage or treated with ice. Parents will be told about the minor injury when they pick their child up.

Daily Attendance: Staff will be trained to manage the established system of knowing the whereabouts of all children in their care always. During early AM arrival and late PM pick-up, teachers will be kept aware of children they are responsible for, as rooms are condensed, and staff leave the center. Parents or authorized adults are required to bring children into the building and to sign the children in at the beginning of the day (documenting arrival time) and sign them out at the end of the day (documenting departure time). Comparison of the attendance record to the actual children in care will occur at each transition and frequently throughout the day.

Parents are encouraged to call if their child will not be attending or will be arriving late. If a child is being transported by a transportation company and does not arrive at the scheduled time, staff will call the parent or authorized adult to check on the child. All attempts will be documented.

Emergency contact person - when there is only one staff person on site with eight or less children, we will ensure that an emergency provider is available within 5 minutes. That person will be trained on Shaken Baby Syndrome (SBS) and will sign a document agreeing to serve as an emergency back-up.

Authorized Pick-Up Children will only be released to persons listed on the enrollment form. Emergency supplies – a radio and flashlight with extra batteries for both, first aid kit and blankets will be kept in the shelter area always. A flashlight is also kept in each classroom always.

Special evacuation considerations Any child who has a limited ability to respond in an emergency will be identified at time of admission. Staff will be aware of any **special evacuation needs** the child will have and accommodations will be made to ensure their safe removal from the building.

Custody Issue Disputes – I will only withhold a child from a parent if there is a court order to do so. If the parent or other authorized person arrives to pick up a child and that person appears to be intoxicated or under the influence of drugs, all reasonable steps will be taken to prevent the person from leaving with the child, including offering to call a cab or another contact person. While staff cannot legally withhold a child from the legal guardian, we will not hesitate to call the local authorities if we feel the child is in danger.

If an unauthorized person arrives to pick up a child, we will ask that person to leave. If they choose to not leave, we will call the local police department.
